New model 310C
User Calibrated Digital Thermometer - by TPI

/ Very competitively priced
/ For penetration, immersion and air temperature testing
/ Rugged, Reliable, Accurate and Affordable

The TPI 310C pocket digital thermometer is a compact electronic instrument ideal for temperature measurements requiring surface penetrations or air temperature readings.

The TPI 310C can be user calibrated very simply with a glass of iced water and is accurate to plus or minus 1 degree centigrade. This makes the 310C thermometer ideal for food product handling, food safety applications and HVAC requirements.

Test Products International (TPI) is one of the world's leading designers and manufacturers of digital handheld test equipment, measuring instruments, food safety equipment, field instruments and digital tools.

FEATURES

> Simple to use
> Fast response time
> Easy to read LCD
> Push Button Operation
> Single Hand Operation
> Rotating head for better viewing
> Data Hold function
> Auto Power Off after 35 minutes
> Penetration Tip
> Switchable between ^{o}C and ^{o}F
> 3 year limited warranty

TECHNICAL SPECIFICATIONS

> Resolution 0.1^{o}C/^{o}F
> Temperature range -50°C to 150°C
> Accuracy ± 1°C
> Sample time - one reading every 1.5 seconds
> 12.5cm temperature probe length
> Battery 1.5V (LR44 - small disc type)

STANDARD ACCESSORIES

> Protective sheath
> Steel pen clip
