

New model 315C User Calibrated Waterproof Digital Thermometer - by TPI

- / Very competitively priced
- / For penetration, immersion and air temperature testing
- / Rugged, reliable, accurate and affordable

The TPI 315C waterproof pocket digital thermometer is a compact electronic instrument designed for temperature measurements requiring surface penetrations or air temperature readings.

The TPI 315C can be user calibrated very simply with a glass of iced water and is accurate to plus or minus 1 degree centigrade. This makes the 315C thermometer perfect for food product handling, food safety applications and HVAC requirements.

The 315C digital thermometer is an excellent tool for calibration of thermostats, vents, compressor heads, registers, food serving, grills and surface temperatures and it can also be used for ambient air temperature readings.

Test Products International (TPI) is one of the world's leading designers and manufacturers of digital handheld test equipment, measuring instruments, food safety equipment, field instruments and digital tools.

FEATURES

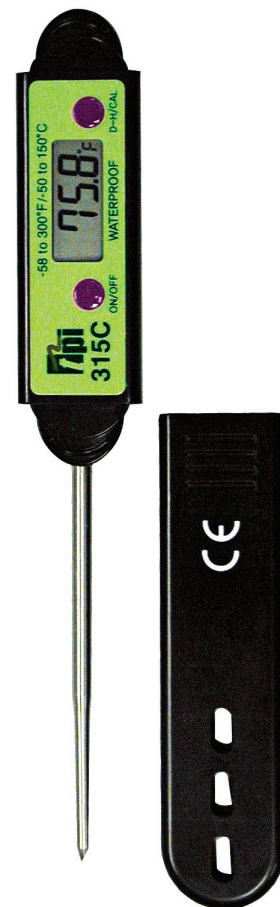

- > Simple to use
- > Waterproof - rated to IP67
- > Fast response time
- > Easy to read LCD
- > Push button operation
- > Single hand operation
- > Suitable for use with a Petes Plug
- > Magnetic clip and protective sheath
- > Data Hold function
- > Low battery indicator
- > Auto Power Off after 35 minutes
- > Penetration tip
- > Switchable between °C and °F
- > 3 year limited warranty

TECHNICAL SPECIFICATIONS

- > Resolution 0.1°C/°F
- > Temperature range -50°C to 150°C
- > Accuracy ±1°C
- > Sample time one reading every 1.5 seconds
- > 71mm temperature probe length
- > Battery 1.5V (LR44 - small disc type)

OPTIONAL ACCESSORIES

- > Soft carry pouch
