

# Model 605 Digital Vacuum Gauge- by TPI

## for the HVAC and Refrigeration professional

- / Competitively priced
- / For HVAC and Refrigeration applications
- / Rugged, Reliable, Accurate and Affordable

The compact TPI 605 digital Vacuum Gauge is a quality handheld test instrument designed especially for the HVAC and refrigeration technician. It measures vacuum from 12,000 microns down to zero microns.

The TPI 605 verifies the vacuum in a refrigeration system before the refrigerant is changed. It also helps prevent moisture and air being left in a system and is useful for detecting small leaks.

The TPI 605 is competitively priced and will pay for itself in no time at all. It has a 3 year limited warranty.

Test Products International (TPI) are one of the world's leading designers and manufacturers of digital handheld test equipment and instruments.

### FEATURES

- > Pocket sized
- > Fast response time
- > Measures vacuum from 12,000 to Zero microns (Note:- some competitors vacuum gauges will not measure below 25 microns)
- > 7 units of measure (Microns, PSI, InHg, mBar, Pascals, Torr, mTorr)
- > Display updates every 0.5 seconds
- > Auto power off after 10 minutes when vacuum is above 12,000 microns
- > Built in hook for hanging
- > Cleanable sensor
- > 300 PSI over pressure

### TECHNICAL SPECIFICATIONS

- > Sensor type - Thermistor
- > Connection - Standard 1/4" NPT male
- > Accuracy - 10% of reading  $\pm 10$  digits
- > Operating temperature 0 to 40°C
- > 9V alkaline battery

### OPTIONAL ACCESSORIES

- > Soft carry pouch
